

## We did a thing.

Did you hear? VirtualMed Staff and Modern Healthcare partnered to host a webinar titled *Best Practices for Creating a Successful Telepsychiatry Program*. In it, a panel of telemedicine and telepsychiatry subject matter experts and thought leaders from VirtualMed Staff and WellStar shared compelling stories and best practices for creating a successful telepsychiatry program.

Thank you to everyone who attended, engaged, and provided our panelists with great questions and feedback. For those who missed it, [we have a recording here](#).

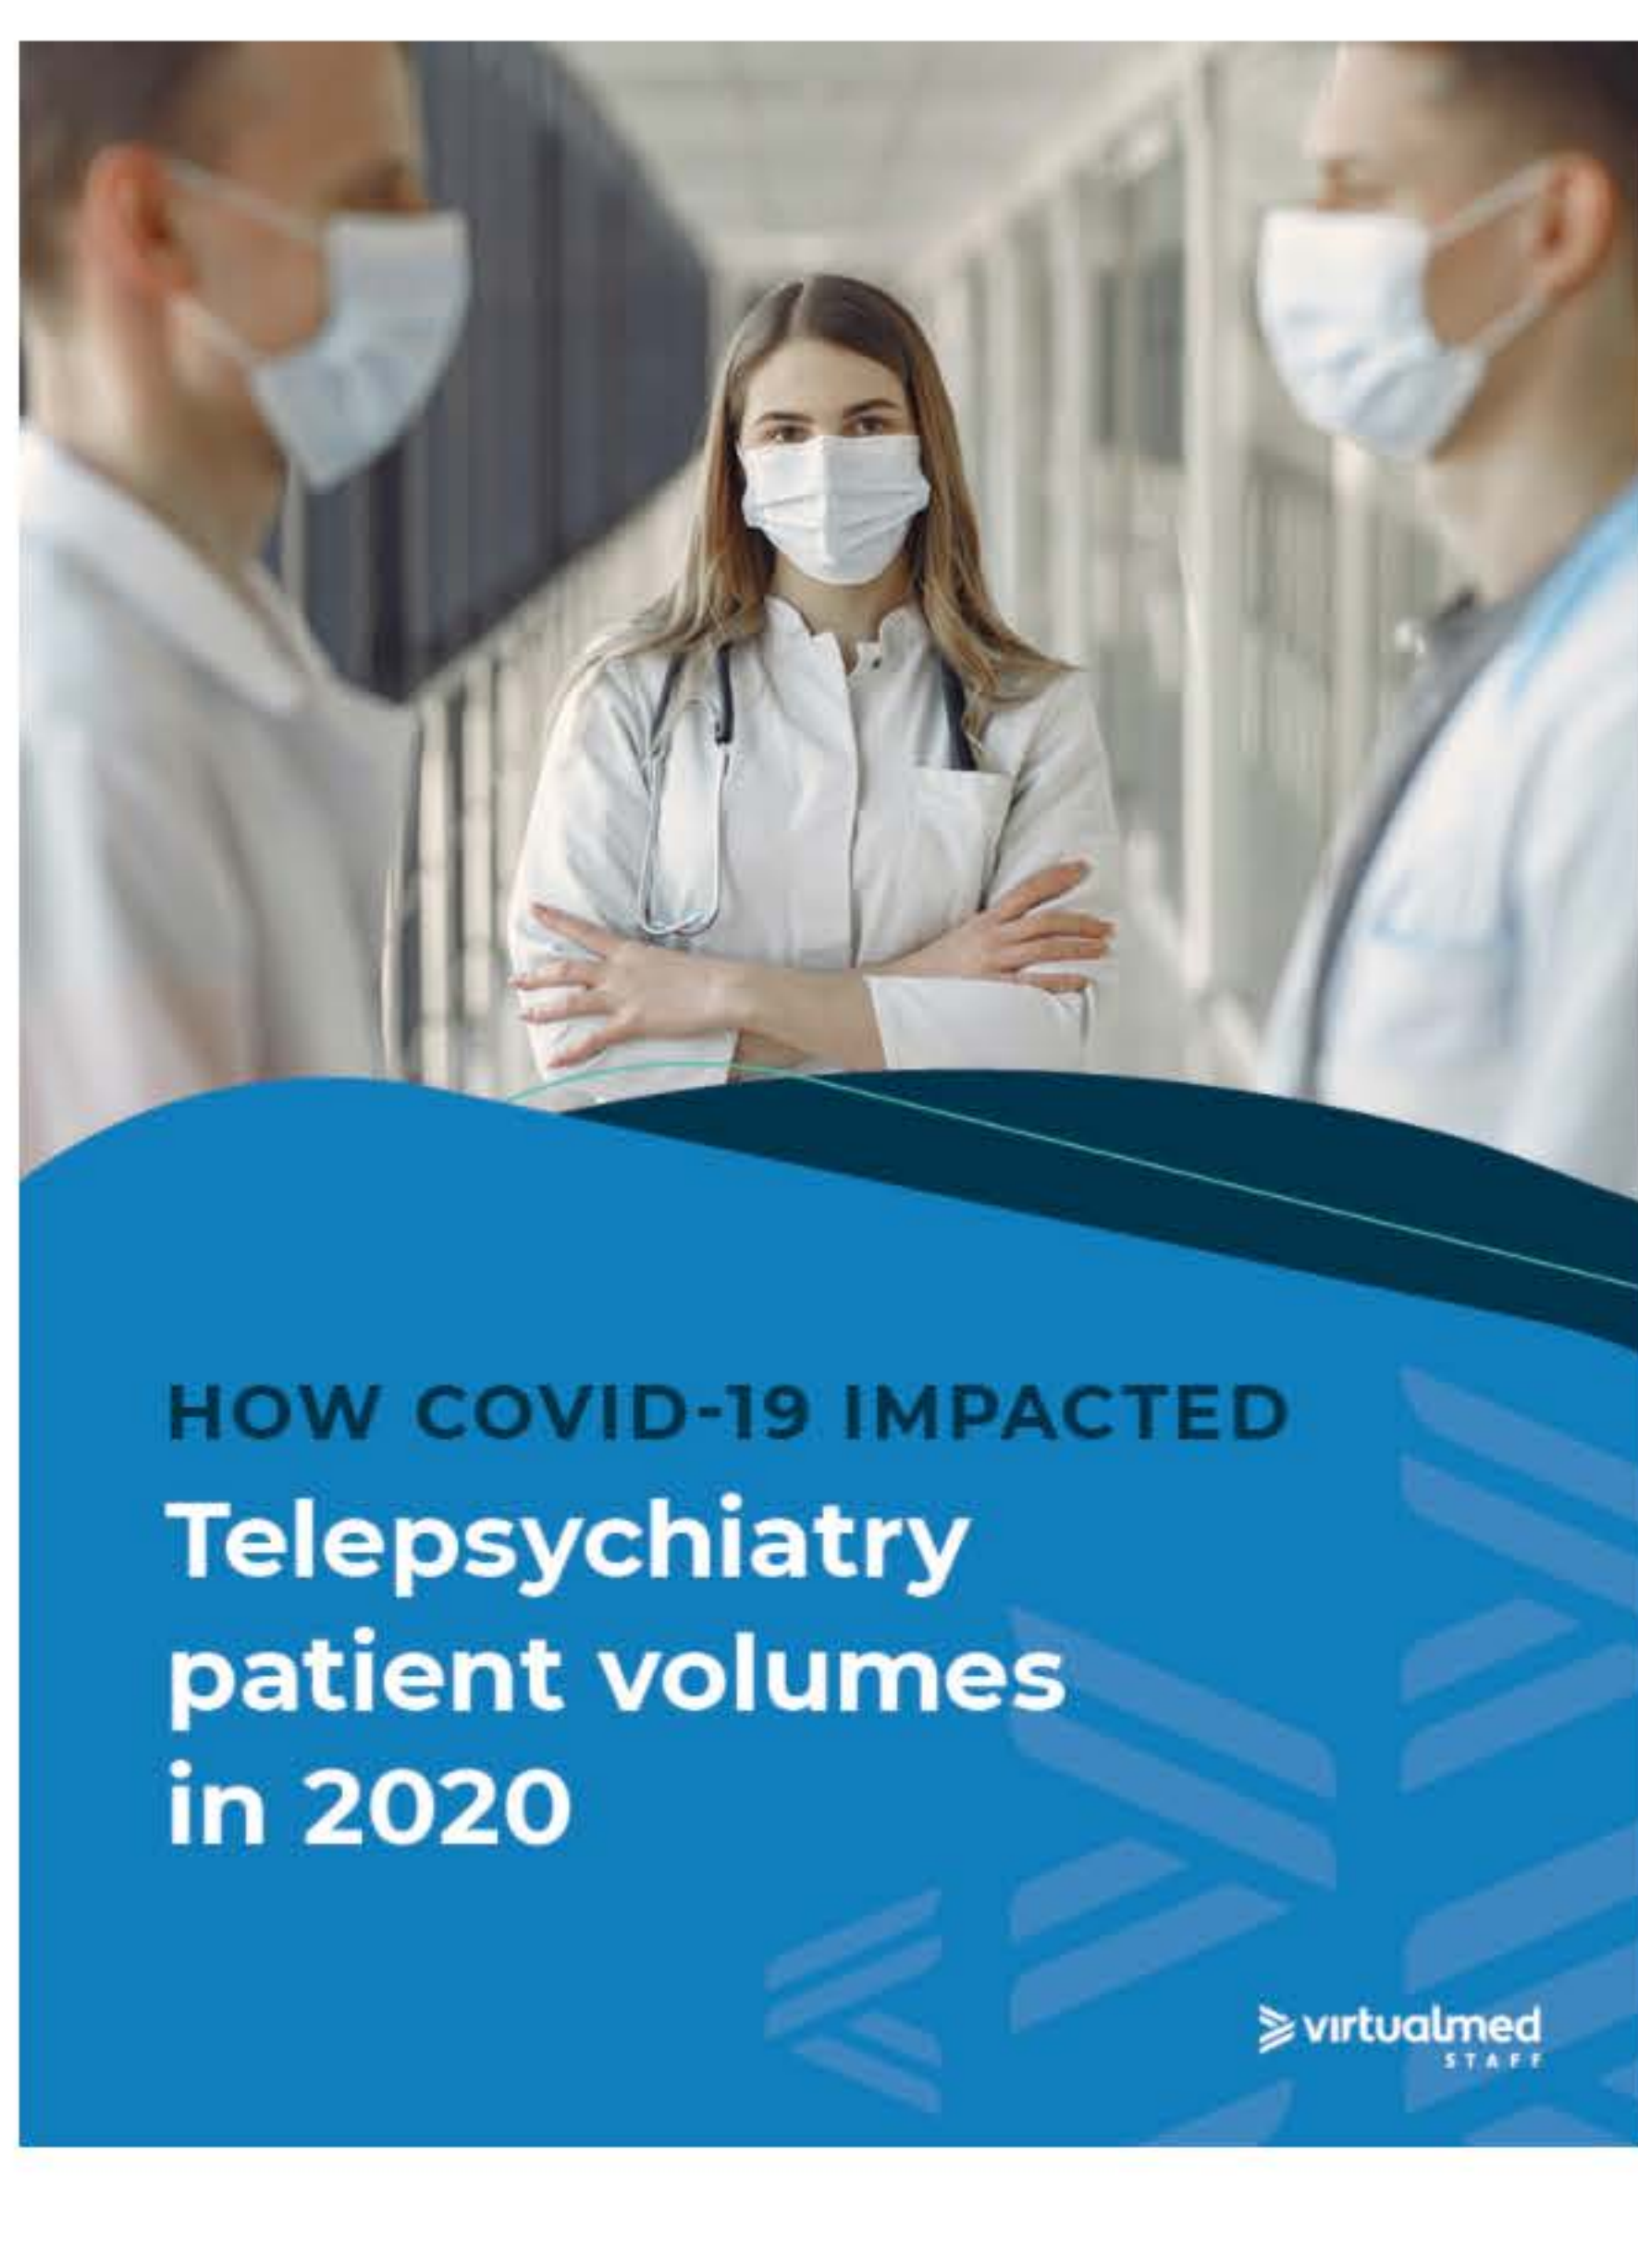

## A message from our President, Jack Williams

In April, we hosted our first large webinar on Telepsychiatry best practices. It went wonderfully, with a lot of attendees and interest. Four guest speakers led the webinar: Jon White, our VP of Clinical Operations; Amy Otto, our Director of Customer Experience; Dominique Roberson, our Director of Credentialing; and Sally Eckford, a leader at WellStar Health System, which is also one of our Telepsych clients here in the Atlanta market.

### Physician Spotlight: Dr. Tanya Scurry

*"Wherever you go, whatever you do, take something positive from that experience."*

That was the advice of Dr. Tanya Scurry's mother, and in many ways, it's the advice that set her on the journey towards where she is today – an advocate for telepsychiatry.
